

## Replanting the Church House Front Garden

November 7, 2020

### **Destruction becomes an opportunity**

• Digging up the roots of old plantings

## Replanting the Church House Front Garden

New plantings in front of Church House

**All Hallows Guild has coordinated with the Cathedral in the repair and renovation of the front garden at Church House.** Part of the area of the garden and lawn was excavated and destroyed to install new gas lines. Destruction can always be an opportunity, and our horticulturists have consulted with the Garden Committee to create a new design for the front garden, for which the Guild contributed funds.

## Replanting the Church House Front Garden

Before: Large shrubs crowded the entrance to Church House

**The entire front garden, including the area adjacent to the cafe patio, has been replanted.** This area, which borders South Road, is seen by visitors entering the Cathedral grounds from Wisconsin Avenue. New sod, shrubs, trees, and perennials were installed.

## Replanting the Church House Front Garden

New natural gas service was connected to Church House - leaving some very unattractive pipes and valves prominent along South Road

## Replanting the Church House Front Garden

Plantings were installed to conceal the gas piping

## Replanting the Church House Front Garden

## Replanting the Church House Front Garden

The gas pipes and valves are now concealed by a hedge
