

## Pilgrim Road Bed

In 2017 the planting bed below Shadow House (outside of the Bishop's Garden wall), along Pilgrim Road was replanted with: Redbuds, Tiarella and hellebores, Viburnum, ajuga, Peonies, Hydrangea, and varieties of Geranium and Penstemon. Several of the existing plants were retained (Bladdernut Shrub & larger Crape myrtles, Fig tree, Bay tree, Viburnum Winterthur, & Hawthorne tree).

This bed intersects with the Aquia Quarry stone steps and the steppingstone path to the lower Bishop's Garden that were installed in early 2017. Adjacent to this planting bed is the Huidekoper border and the crape myrtle bed.
